

wedi building board PreLine

Prefabricated element for use with hot water heating systems

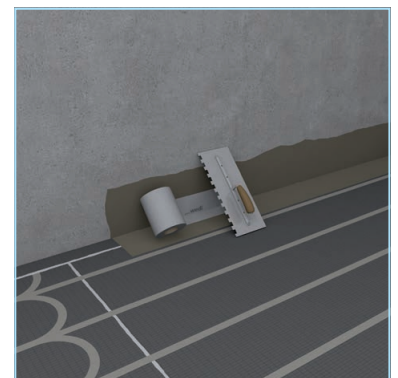

The wedi building board PreLine is a fully prepared building board element for easy installation of hot water heating systems. Factory integrated recesses allow for quick and safe installation of water pipes whilst strong insulation properties of the material itself prevent heat escaping to the ground thus promote a balanced heat distribution across the entire space.

Sealing of intersections

Sealing of joint areas

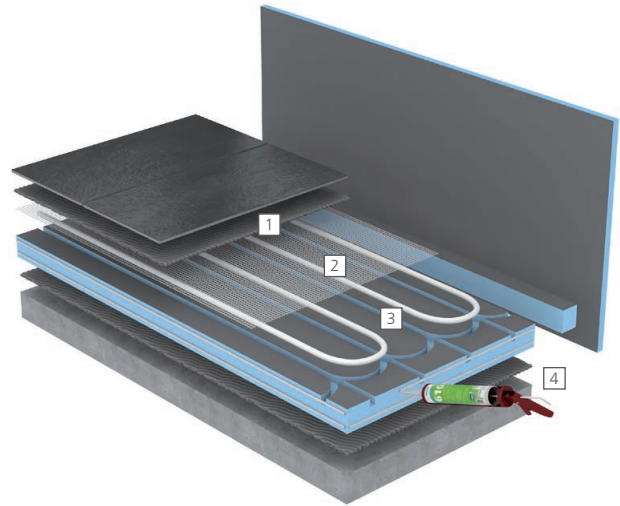

Sealing of wall/floor connections

Quick. Reliable. Warm.

The prefabricated wedi building board PreLine allows for quick and waterproof implementation of underfloor heating. The water pipes are simply laid in the integrated recesses (recommendation: aluminium PEX Ø16 mm) and backfilled using wedi 320 tile adhesive.

Used products

- 1 **wedi 320** ■ tile adhesive for bonding the wedi building board PreLine to the screed floor and for backfilling pipe ducts
- 2 **wedi Tools joint reinforcement tape, self-adhesive** ■ for reinforcement of the full surface
- 3 **wedi building board PreLine** ■ prefabricated building board element for use with hot water heating systems
- 4 **wedi 610** ■ for sealing intersections and joints between wedi building board PreLine elements and adjoining wall/floor areas lined with wedi building boards

wedi building board PreLine

	Description	Element: length × width × thickness	Milling groove: width × depth	Pallet edging	order no.
	wedi building board PreLine	1240 × 600 × 30 mm	16 × 20 mm	72 units	076900257
wedi building board PreLine	1240 × 600 × 40 mm	16 × 20 mm	72 units	076400259	
wedi building board PreLine	1240 × 600 × 50 mm	16 × 20 mm	48 units	076400260	
wedi building board PreLine	1240 × 600 × 60 mm	16 × 20 mm	48 units	076400258	

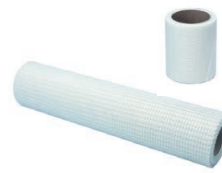

Consider the necessary accessories:

wedi 320, tile adhesive

wedi 610, adhesive sealant

wedi Tools, joint reinforcement tape, self-adhesive
